Damien Dormal

Staff Software Engineer | damien.dormal@pm.me | +61 459 352 671 | Margaret River, AU

Summary

Staff Software Engineer with 15+ years of experience building and scaling distributed systems. Product-minded technical leader who bridges engineering, product, and business stakeholders. Proven track record as both IC and Engineering Manager. Proficient with AI-augmented engineering workflows. Deep expertise in card issuing platforms, IDV/KYC, and bank/network integrations powering millions of customers for Cash App and Square.

Skills

- **Languages & Frameworks**: Kotlin, JavaScript, Ruby, Java, Python, Temporal, gRPC
- **Data & Storage**: MySQL, PostgreSQL, Kafka, Redis, MongoDB
- **Infrastructure & Cloud**: AWS (EKS, RDS, SQS, S3), Kubernetes / Docker, Terraform, Datadog, PagerDuty, BuildKite
- **Domain Expertise**: Distributed Systems, API design, Card Issuance, IDV/KYC, Compliance engineering, Issuer Processor Integrations

Work Experience

Cash App / Block **Remote**
Staff Software Engineer / Engineering Manager May 2021 — Mar 2026

- Led the accounts stream for Block's Visa DPS integration — designed issuer-agnostic APIs to avoid tight coupling with Marqeta
- Coordinated 4+ teams to deliver Bancorp compliance reporting (Card, KYC, transactions and balances), securing bank approval and unblocking the DPS launch
- Architected the program construct to manage Block's growing card issuing portfolio across multiple issuer processors and sponsoring banks
- Rebuilt denylisting orchestration on Temporal, replacing 3 legacy APIs with a reliable workflow supporting customer appeals and detailed reporting to partner banks
- Led a task force to resolve data consistency issues in the Marqeta integration, fixing incorrect account states for ~50K customers and stabilizing the Sutton BIN sponsor relationship
- Founded and grew the New Markets team (3–5 engineers) owning account management and card program infrastructure; authored the strategic roadmap and business case for expansion
- Enabled the launch of Cash Teen (sponsored accounts) for Cash App Card, driving KYC pipeline changes and contributing to 5M+ new monthly active users

Envato **Remote**
Lead Developer (Acting) Dec 2019 — May 2021

- Designed and developed a new API to distribute content across the organisation, enabling downstream teams to consume assets programmatically
- Led the decomposition of a monolith application into services, extracting key functionalities into independently deployable microservices
- Led infrastructure and DevOps improvements within the group, organising and facilitating monthly infrastructure catchups

Locomote **Remote**
Lead Software Engineer Feb 2016 — Apr 2019

- Developed the booking tool (Node.js) and travel management platform (Rails) serving enterprise customers
- Transformed the booking tool to support multiple booking APIs, enabling the platform to aggregate travel suppliers
- Supported engineers and hired new staff, improving developer engagement through cross-team meetings

Moko Social Media **Perth, WA**
Software Engineer Feb 2015 — Feb 2016

- Built the API for Speakiesy, an intramural social app launched to 100+ college campuses (Rails)
- Introduced new DevOps strategy using Docker and AWS ECS, modernizing the deployment pipeline

Cinglevue **Perth, WA**
Lead Software Engineer Mar 2012 — Jun 2014

iiNet **Perth, WA**
Software Engineer Apr 2011 — Mar 2012

Steria **Brussels, Belgium**
Software Engineer Sep 2007 — Oct 2010

Education

HEB ESI **Brussels, Belgium**
Bachelor Sep 2004 — Jun 2007
